Your Committee would ask permission from this Council to have a cut of the City Hospital executed for the purpose of conveying a somewhat correct idea to the Mayors, Reeves and Deputy Reeves of the different municipalities surrounding us, to whom your Committee propose sending a circular, said circular setting forth the advantages of our City Hospital as a curative institution, by that means bringing our Hospital directly under the notice of parties who through want of knowledge of our Hospital, have invariably gone to the Toronto and Kingston Hospitals for medical and surgical treatment, thereby depriving us of a considerable revenue, which could be used towards making our Hospital self-sustaining.

Received and adopted.

Ald. Keenleyside, chairman, submitted the following report from the Board of Health:

"Your Committee beg to report having had complaints of a stagnant pool in King Street school house yard, No. 1 ward, we employed men and had the nuisance removed by filling up the pool with earth drawn from the Court House yard. Cost of said work, $3 60, which amount is debted to the Board of School Trustees. Your Committee beg leave to report that there are numerous places in wards No 1, 3, 5, where the water lays in a stagnant state, also cellars filled with water which is a nuisance and must be a source of disease to the neighborhood and that in the opinion of the Board of Health that immediate steps ought to be taken to have such places drained and the nuisance abated.

Received and adopted.

Moved by Ald Pritchard, seconded by Ald. Campbell, that Mr. Hanson be reinstated as caretaker of the park, at his old salary, $5 a week. Lost.

Ald. Campbell submitted the following report:

"The Special Committee appointed to ascertain if suitable grounds could be obtained in the vicinity of the city, for exhibition purposes, beg to report that they have examined several localities within a short distance of the limits of the corporation, and believe that suitable lands can easily be got at any time the Council may deem it advisable to remove the Exhibition Grounds.

"Your Committee would recommend that a by-law be prepared with as little delay as possible, submitting the sale of Salters Grove to the vote of the electors."

Moved by Ald Egan, seconded by Ald. Williams, that in view of the increased demands upon the resources of this corporation, consequent upon the establishment of water works and expenditure on a public park, it has become absolutely necessary that every source of obtaining an increased revenue so as to keep the rate within the requirements of the Statute, should be made available; and therefore it is resolved that the present Exhibition Grounds be placed in the market for sale without delay, and other grounds be secured in lieu thereof; further, that unless every available lot for building purposes now in possession of the city be now placed in a position to contribute to the revenue, because under the amendment to the Act which relieves parties not using the water from paying water rates, those who pay water rates will of necessity be burdened with a double responsibility in the shape of taxation.

Moved in amendment by Ald. Christie, seconded by Ald. Rapley, that the report be referred back for further consideration.

His Worship ruled the last clause of the report out of order.

The amendment carried.

Ald. Campbell then moved, seconded by Ald. Vining, that the question of the sale of Salter's Grove or the present Exhibition Grounds. that was to have been submitted to the ratepayers last fall, but deferred until the water works by law passed, be submitted to the ratepayers to vote upon as soon as due legal notice has been given.

Moved in amendment by Ald. Pritchard, seconded by Ald. Powell, that the sale of Salter's Grove alone be submitted to the people. Lost.

Moved in further amendment by Ald. McNab, seconded by Ald. T. Peel, that the Salter Grove be retained for park and exhibition purposes, and that the present Exhibition Grounds be sold. Lost

Motion carried.

Yeas—Aldermen Campbell, Skinner, Regan, McNab, Keenleyside, Edleston, Christie, Williams, Vining, J. R. Peel, T. Peel, Egan.

Nays—Aldermen Pritchard, Smythe, Thompson, Murray, Powell, Rapley Glass, Browne.

Ald. Keenleyside moved, seconded by Ald. Powell, that a Special Committee, consisting of Messrs. Pritchard, Powell, Skinner, Glass Christie, and the Mover, take into consideration the advisability of offering some inducements to a certain class of manufacturers that we have not in this city. Carried.

Ald. Williams gives notice that he will move at next meeting, that in consideration of the very unsatisfactory, and in many instances unfair, manner of repairing the public streets and sidewalks, that the Board of Works be instructed to take into consideration the advisability of adopting a frontage tax for all improvements.

Moved by Ald. Smyth, seconded by Ald. Pritchard, that in future all parties erecting buildings be required to keep a sidewalk sufficiently wide for the convenience of foot passengers where they require to be taken up, and in no case to occupy over one-third of the street and in case the sidewalk is removed that it be done under the order of the City Engineer. Carried.

Moved by Ald. Smyth, seconded by Ald Williams, that the Printing Committe be instructed to call for new tenders for printing and stationary.

Moved in amendment by Ald. Glass, seconded by Ald. Prichard, that the printing of this corporation be done by the press of the city, and that it be done at the same rate as the merchants pay for their printing; and that all printing to be done be approved of by the printing committee before going to the press; and further that the printing commitee ask for tenders for stationery. Lost.

Motion carried.

The Council adjourned for two weeks.
